

# CORONAVIRUS (COVID-19)

## What is it?

Coronaviruses are a type of virus. There are many different kinds, and some cause disease. A newly identified type has caused a recent outbreak of respiratory illness now called COVID-19 that started in China

## SYMPTOMS

Cough

Fever

Shortness of breath

## PREVENTION

Wash your hands

Avoid touching your eyes, nose, and mouth

Cover your cough or sneeze with a tissue

Stay home when you are sick.

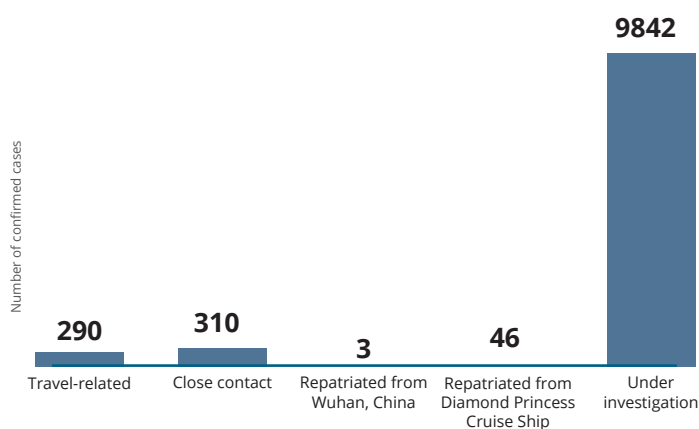

## How does the virus spread?

Like many other viruses, COVID-19 seems to spread from person to person through a cough, sneeze, or kiss.

## What is the risk?

As of today, the Centers for Disease Control and Prevention (CDC) states that the risk in the U.S. is still low. It will update the status regularly on the CDC website.
