

The Benefits of Using DrChrono Payments

Seamlessly manage payment plans and recurring payments in one, unified platform with DrChrono Payments.

With DrChrono Payments, you can eliminate the hassle of using a third-party vendor. Our fully integrated solution simplifies your practice's billing processes and optimizes revenue streams.

What is DrChrono Payments?

DrChrono Payments refers to the direct integration of DrChrono with Paysimple Payments. This seamless integration enables practices to streamline their payment workflows.

In addition, DrChrono Payments users have access to insightful reports that can help eliminate gaps in payments and visualize practice revenue.

Benefits of DrChrono Payments

Improve the Patient Experience

Meet the needs of your patients with customized patient plans. Every patient is different. That is why DrChrono Payments allows for much-needed flexibility for those who may need it.

Stop Missing Payments

DrChrono Payments makes sure your practice never misses a bill. Set up installment plans, recurring payments, or auto-pay to ensure all payments are completed in a timely manner.

Securely Save Patient Information

Access private patient payment information and payment methods in a secure, HIPAA-compliant environment.

Save Time – and Money!

Cut out the middleman. DrChrono Payments is already integrated – all you have to do is activate it!

Three Simple Steps to Activate Patient Payments Plans on your DrChrono Account

Three Simple Steps to Activate Patient Payments Plans on your DrChrono Account

STEP1

Navigate to Account Settings

Navigate to Account > Account Settings > Patient Payments

STEP2

Customize Your Preferred Parameters

Under “Payment Plan Settings,” you will see instructions to identify and set your preferred parameters. Examples of parameters you can set include:

- the monthly payment amount your office will accept
- the minimum patient balance you will allow
- the min/max number of months you will allow in your payments to be stretched over

STEP3

Update Your Account

Once you have confirmed your parameter settings, click on “Update Entire Profile.” Now you are ready to accept Payments!

Interested in Creating Payment Plans for Your Patients?

Once you've activated Payment Plans in your account, you can set up individual patient plans for your patients. This feature offers convenience and flexibility to patients who may prefer to pay off their balance over time rather than all at once.

Other benefits of Payments Plans:

Build Patient Trust

Allowing your patients to complete payments on a schedule that works best for them and their personal needs fosters trust.

Enable Auto Payments

Simply add a customer credit card and set up auto-pay.

Keep Multiple Cards on File

Patients can store multiple credit or debit cards on file and select their preferred payment method as needed.
